

Lionel Born

Director, Spacenus GmbH

Before Spacenus GmbH and even before finalizing his Bachelor and Master of Science in Business Information Systems, Mr. Born successfully founded two technology companies through which he became an expert in managing extensive software development projects in cooperation with large corporations. He contributes to Spacenus GmbH with this experience in software architecture, software design and development and in leading diverse teams as well as creating and managing a successful business. Additionally, he maintains a valuable connection to young professionals by being involved in networks such as the Technical University of Darmstadt, the Economic Council of the CDU e.V., Mentor Programmes of the Deutsche Lufthansa AG and Deutsche Bundestag, as well as Start-Up Rhein Main and Start-Up Israel.
